Contributors : Aya Mouawi

Hassan Fakih

Marianne Pharaon

Zizette Chamaa

From : August 1 till August 27<sup>th</sup> 2023

# About the project

## Objective

Creating an online presence that appeals to both cost-conscious individuals and those who value quality, authentic ambiance and healthy food.

## Target audience

- Family week-end restaurant
- Food Enthusiasts
- Tourist Travelers

# Project phases

## phase 1

Cloning the web image

## phase 2

Coding part

Figma design of new pages  
& responsive version

## phase 3

Coding new dynamic pages

## phase 4 Integration

- [Cloning the restaurant model website](#)
- Coding the website desktop version
- Work strategy (dividing tasks)
- Scheduling deadlines for each part
- Helping each other & fixing bugs
- Figma design of the mobile version of the website
- Working on making the website more dynamic and user friendly

Cloning the image  
proposed by  
Simplon

Analysing the  
process

Searching for the  
write environment :  
html css javascript

Correcting bugs and  
sharing with the  
group

Figma design of the  
responsive site

Coding and  
Integrating

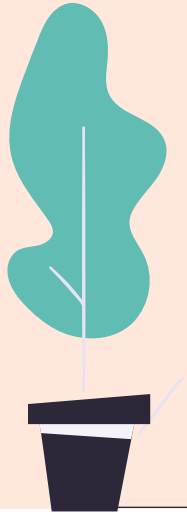

# Feedbacks

**CENTRE**  
D'EMPLOYABILITÉ  
FRANCOPHONE  
**BEYROUTH**

html css code needed

# Zizette

## Worked on:

Linking and organizing the data for all the site 3 html files

Coding in the Home Page sections :

- Our Restaurant, Special menu
- Testimonial, Your Opinion.
- Integrating in Home the parts of Hassan and Marianne

### What I learned

Better HTML

Better CSS

Enhancing our Usage of JavaScript

Using and cooperating with SCUM methodology

### Difficulties

Time Pressure

Connecting with my colleagues and understanding their needs

Reaching for better ways of communication

# Hassan

## Worked on :

- Header
- Icons under the header
- Dynamicity of the website
- Contact us

### What I learned

JavaScript Logic

Responsiveness of the website

CSS animations

Clip Path in CSS

### Difficulties

Clip Path in CSS

Merging

Slider Logic

# Aya

## Worked on:

- Footer
- About us page
- Figma with the group collaboration
- Free hosting

### What I learned

Including the map in a web page

Fun animations using css

New javascript logics

Accordion for the FAQ

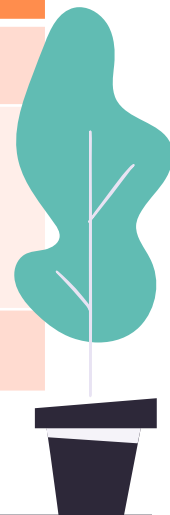

Responsiveness and dynamicity

### Difficulties

CSS in general

Making the code in a way that wont give me a hard time making it responsive

Merging in GitHub

# Marianne

Worked on:

- Menu grid
- Testimonial
- Contact us page

## What I learned

Designing website using html and css

Searching for solution

Patience

New JavaScript logic

## Difficulties

Website crashing each time

Responsiveness of the website

Dynamicity of the website

Merging
